Art Unit: 1634

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1, 93, and 97 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Moore et al (U.S. Patent Application Publication 2001/0021700). This rejection is repeated for reasons already of record (*e.g.*, Office action mailed October 18, 2008, page 2). Applicants' arguments (response filed April 3, 2009, pages 3-5) are not convincing because applicants argue only inherent characteristics of the genes expressed. The steps practiced in Moore et al and in the instant claims are the same.

Claims 92 and 94-96 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Martinell whose telephone number is (571) 272-0719.
